Kamehameha Schools and Group 70 International Accept National Planning Award

The APA honored Kamehameha Schools and Group 70 International at its annual National Conference in Boston. Individuals from Group 70 International and Kamehameha Schools were in Boston to accept the APA's prestigious National Planning Excellence Award for Innovation in Sustaining Places. This is the first time since 1997 that a Hawai'i organization has received a national APA award. The APA praised Kamehameha for its community outreach and values-based decision making. The plan encompasses 26,000 acres on O'ahu's North Shore.

Kamehameha Schools collaborated with planning and design firm Group 70 International to develop the winning plan.
