

NOTICE

Free Training by the National Disaster Preparedness Training Center

As a part of the Pacific Risk Management Ohana's (PRiMO) Annual Conference (<http://collaborate.csc.noaa.gov/PRiMO/about/events/default.aspx>), the National Disaster Preparedness Training Center (NDPTC) will be offering three **free** training courses during the pre-conference workshop period (3/10/14).

See website. http://collaborate.csc.noaa.gov/PRiMO/Pages/2014_Training.aspx

Coastal Community Resilience - Custom (AWR-228C) and Coastal Flood Risk Reduction (PER-305) are FEMA certified courses, and the Advanced Disaster Recovery Strategies for Local Communities will be used to assist us in developing a new FEMA training course for pre-disaster recovery planning. This recovery planning workshop will be led by Dr. Gavin Smith from the University of North Carolina, Ms. Carolyn Harshman, and Mr. Jim Schwab of the APA Hazards Planning Research Center. To register for the courses, please use the following links:
